

AHMED NASSER

Front End Web Developer (React.js & Next.js)

Cairo, Egypt | +20 10 686 920 41 | ahmednasser111@gmail.com

LinkedIn | NPM Profile

PROFESSIONAL SUMMARY

Highly skilled and results-driven Front End Web Developer with extensive experience in React.js, Next.js, TypeScript, and JavaScript (ES6+). Proficient in building scalable, high-performance web applications using modern libraries and frameworks including Redux, Zustand, Tailwind CSS, MUI, Shadcn, and RizzUI. Skilled in integrating third-party APIs via Axios, optimizing application performance through techniques like lazy loading and code splitting, and ensuring responsive, user-centric designs. Proven ability to collaborate with cross-functional teams to deliver impactful solutions in industries such as education, insurance, tourism, and enterprise software. Committed to continuous improvement, contributing to open-source initiatives, and staying current with emerging technologies.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+)

State Management: Redux, Zustand, Signals

Styling: Tailwind CSS, MUI, Shadcn, Headless UI, RizzUI, Styled-components

APIs & Tools: TanStack Query, Axios, REST APIs

Forms: React Hook Form, Yup Validation, Zod Validation

Other: Git, Performance Optimization, Responsive Design, SEO

PROFESSIONAL EXPERIENCE

Frontend Developer at INCode

Cairo, Egypt | February 2024 – Present

- Created comprehensive school management dashboard featuring quiz management, assignment tracking, and event scheduling systems.
- Developed and deployed an AI-powered call assistant dashboard to drive customer interaction efficiency and enhance engagement.
- Built intuitive, data-driven dashboards for the insurance and education sectors, offering insightful solutions for effective data management and visualization.
- Developed interactive restaurant menu system with management dashboard, streamlining food ordering and restaurant operations (View Menu).

Environment: Next.js, React.js, TypeScript, TanStack Query, React Hook Form, Zod Validation, Tailwind CSS, RizzUI, html-to-image

Frontend Developer at Mazeed

Cairo, Egypt | April 2022 – February 2024

- Developed an internal meeting management system to streamline scheduling and improve team collaboration.
- Built a comprehensive voting application with real-time results and user authentication.
- Created a task management system for efficient project tracking and team productivity.
- Delivered key solutions including a committee management system to simplify administrative processes and optimize overall user experience.

Environment: React.js, Redux, Tailwind CSS, React Hook Form, Yup Validation, Moment.js, use-debounce, react-infinite-scroll-component, react-i18next, Lodash
